Network: Broadband Internet connection

Storage: 20 GB available space

English,French,Italian,German,Korean,Polish,Russian

batman arkham origins - black mask challenge map pack. batman arkham origins black mask challenge pack code. batman arkham origins black mask challenge pack

Not bad, Will probably be much better in the future, needs alot of polishing. Games still very good for how long its been out

EDIT: Terrible updates

6/10 Edit 3/10. Great game, very humorous. One thing I really liked about this game was that the enemies were limited, instead of the usual random battle mechanic in a game like this. Also recharging items was a nice idea.. DLC for an already great game. Props to the devs!

ps: bot support would be very nice. You play as a nymph servant named Pumpkin and your goal is to find ingredients to make a love potion to seduce your Mistress, Mrs Amethyst. Not a lot to do in this one... Don't bother with this VN unless it's on sale and only if you are a big fan of this kind of schlock. I would rate this a 4/10 (consider it a 3/10 if you hate VN and a 5/10 if you love them).

Cons:

- It's too short, even for a visual novel. Expect to complete it 100% in 1 hour then to let it open a couple more hours for the cards and then to never play it again (good for achievement hunters I guess).
- The music is generic as hell. It uses at least one very recognizable public domain earworm. It's lazy and boring.
- Very few choices, extremely predictable story and basically every endings are the same.
- Not a lot of wanking material (only one scenario results in a sex scene and the writing is not erotic at all).
- Characters are bland clichés and the writing is uninspired.

Pros:

- The art is charming and good at least. It deserves to be in a better game.
- You don't need an adult patch to see naked boobs. You only need to get to the "galleries", press TAB then type the word "code" and voilà! It's still very tame though.

Neutrals:

- The tongue-in-cheek humor is charming but too seldom used. A lot of waste potential storywise.
- The interface is ok. The skip button work like a charm, but it's not a good sign when you pass 75% of the time playing in skipping mode.. This game is incredibly fun. Granted, the early ships you have are complete garbage, so I would recommend upgrading to 4th generation ships as fast as possible. Once you get here, the game becomes a lot easier, as your pilots won't lose their ships constantly to pirates or some other dumbasses who wants a piece of you.

I've only gotten to one ending so far, though I've heard there are at least 4 different endings, depending on your choices in the game.

Either way, this game is a gem. A bit rough around the edges, but still a gem.. Got this simply because my (my mom side) grandpa was part of ARVN but was sadly killed in action and my other grandpa (my dad side) was VNAF flight engineer.. Nice game with addictive factor, if there were not the permanent disconnects.

Get no XP for hours despite premium account .. please fix as soon as possible!. If you are looking for a laid back plane game, this is it, it isnt high graphics with realistic anything, just very simple fly and shoot missions, campaigns and pvp. When I say arcade, it's not even a joke, if you are looknig for realism go elsewheres, if you are looking for a simple to play game with a large option of planes to pick and play with just for fun, shotoing down planes in various missions, then this is for you. In short if you are just looknig for a fun laid back game, this is for you, if you are someone expecting it to be a game competeing with War Thunder then you need not even look causr this is nothing like it aside from world war two planes. The missions are 1-8 players going up agaisnt various air and ground npcs with various objectives. Leveling in this game isnt bad, but being free to play they do tempt you with items you can buy with cash to give you an edge, like any other free to play game does. The plane models arent horrible, once again this game is arcade in almost every sense, controls are other keyboard, mouse, or controller and are very simple. You can swamp out various engines, propellers, armor, and weapons on ANY plane you have and is only limited to the type of the plane and your lvl. Personally i love this aspect cause no plane is the same, except outward apperances which soon may also change.

Over all it is just a funny arcade war plane game, notihng like war thunder so if that is what you are expecting then you wont

like this at all. Very simple game with various things to do from leveling, getting planes, modifying planes, and doing missions. This is a game for someone who doesn't really have a lot of time for say fifteen minute long missions and just want to play for fun, yes you can put hours into it, but the leveling is fairly quick and missions typically are quick and easy, not all of them seeing how they all differ. Not high graphics so you don't need a fancy gaming computer to run it. I would recommend this to any casual gamers looking for a simplistic game that still has various things to do and can play for a couple of hours and you feel like you've made progress.

Also something to mention, this isn't a new game other than it was revived, was originally around in 2010 but GameCampus who originally had it leased/rented which came to an end and now is owned by these guys.

Classic. Highly recommended for fans of Quake, DOOM, RTCW, etc.. Chosen 2 is the sequel to The Chosen RPG. After the events of that game, Edge must find his father's spirit to have a chance to escape the Underworld. At the same time, the rest of his crew must deal with dark rumblings as other dark forces make their presence known.

This game was worth every penny I paid for it. Though, considering I bought it with a coupon.. Never played a Samurai Warriors game, but she is really fun to play with.

My only recommendation is to buy the \$12 bucks character pack, you get both the character and lots of costumes!. Even though this game isn't one of the "Big Blockbusters" (like CoD or anything like that) this game is made really well. It doesn't have great graphics or absolutely amazing gameplay but some of the big blockbusters forget to just make the game fun to play. Most make games to "challenge" the avid gamer, but what about those who just want to get on every once in a while to have a little fun. This game is fun, addicting, and time friendly, which if you are an avid gamer with other things to do, this is a blessing. I would recommend this game to anyone from the most avid of gamers to those who have just started.. This game is fun good to make the time go by fastly, it may get a bit repetitive but still good, and it's totally cheap buy!

9 out of 10. Just loved the game. Wonderful humor and amazing story :)

. I know he's meant to be annoying, but he's still annoying.

Also to make it worse, because the game goes through uPlay, the only way to uninstall him is to uninstall the whole game, then uncheck Towelie on Steam, then install the game again.

He's annoying enough that I have considered this approach.. Holy Grail of my childhood. I consider this gem as the best PC classic platformer of 90s (at least first half). I must admit there is noticeable input latency (I play on keyboard) but it's easy to used to it. If you are skilled game may seem bit short, but it depends of your completion rate of course. Maybe I don't have same feeling replaying this game as I was kid but still it's very good game!. Just doesn't work DO NOT BUY. omg the slowest dlc ever, Jesus the start with this snow map was so slow and boring, no space to expand and just this waiting for delivering of furs. I was waiting the whole game for the fun part to start, but nope.
